Summary

A skillful artisan in various fields who is competent in supporting an organization's functionality. Experienced Food Service Manager with a demonstrated history of working in the individual and family services industry. Skilled in PHP, WordPress, Cascading Style Sheets (CSS), PhpMyAdmin, and Windows operating systems. Vital operations professional with an Associate's degree focused in Web development from Texas State Technical College Waco.

I have many years of experience working in a non-profit field and am accustomed to performing a task with a strained budget, maintaining the quality of the result. Previous experience also includes being a team leader in a customer service environment and understanding the importance of excellent connection and communication with customers and clientele.
